AGUSTÍN DAMIÁN ULLOA

Hi! My name is Agustín. I'm 18 years old and currently studying computer technician.
I'm interested in libre software, and I appreciate a lot working with Linux.
A friendly and able to adapt to any kind of environment person (both at social and tech).
Looking to learn new things and contributing to my wellbeing and the ones around me.

WEBSITE

WORK HISTORY

I have no labor experience, hence I'm really interested to incursionate into the work world.
Wanting to have contact with true professionals, learn new things, grow and live the serious working experience.

STUDIES

📅 03/2016 - Present
📍 ET N°21 "Fragata Escuela Libertad", CABA

Computer Technician

Studying it's last year.

📅 ¿2022 - ...?
📍 Universidad Buenos Aires (UBA), CABA

Computer Engineer

The plan is to start this career as soon as I end high school.

APTITUDES

adaptable · tidy · creative · autodidact · honest · teach · autonomous · persevering · clinical · objective · teamwork

INTERESES

music · singing · learning · teaching · freedom · IT · libre software · minimalism · hacking · linux · theater/movies · design · videogames · photography · philosophy · talking · debate

WISHES

This is a little section I wanted to dedicate to myself.

Most of the stuff that I have learnt was autodidact; books, internet, blogs, wikis and videos. Being **Luke Smith** my mentor.

I'd love to create a foundation with the objective of promoting freedom ideas and promoting libre software, trying to reach more people

By a more personal and not laboral side... In the future I'd love to have a band, and play a lot with my artistical side.
And cannot discard the idea of experimenting with IT related lyrics!

TIME CHART
